Interests in Politics

Interests in new Technology

• Watching the movies and listening the song

Movies allow us to explore our minds to experience and feel things we wouldn't normally feel within the real world, to escape reality. It's not every day you're going to be caught up in a car chase down a military runway (*Fast & Furious 6*), getting hunted in the woods by a psychopath wielding a machete (*Friday 13th*), or be enlightened by romance (*When Harry met Sally*).
